UPDATED CASE CLOSURE FORM

We have made a small but significant correction to the new case closure request form that was announced in the June 29th "RR News from DNR". The instructions now say "Please do not use shading or highlights on any of the analytical, maps or other information as it interferes with scanning documents into our GIS registry. Instead, you may use a bold font on information of importance." We want to ensure that the documents scanned into our geographic information system (GIS) registry of sites closed above groundwater standards are legible to system users. If you have questions about the new form, you may contact Sally Kefer at kefers@dnr.state.wi.us The updated form is dated 7-01-01, and is on the web at: <http://www.dnr.state.wi.us/org/aw/rr/index.htm>
